

Affinity Bio Technologies

Quality, Experience, Passion

N-Vigorate

High nitrogen with additional organic acid to improve nutrient efficiency and reduce burning risk.

CAUTION:

Avoid contact with eyes. Keep out of reach of children.
If swallowed seek medical advice.

Do not store in direct sunlight.

CONDITIONS OF SALE:

Affinity products are manufactured to label specifications.
Affinity takes no responsibility for product damage, loss,
injury or misuse of the product.

COMPATIBILITY

Affinity N-Vigorate is compatible in most ag chem tank
mixes. However a jar test is recommended as some
chemicals can react. Do not mix amines or calcium products.

**Do not store mixed product. Mix well prior to use.
Refer to SDS for correct handling and safety protocol.**

Affinity Bio Technologies works best when plants are
**actively growing and under reduced stress. Apply mid
morning in dry conditions for best results. Do not spray
in hot conditions. For best results consult a certified
agronomist to determine crop deficiencies.**

ANALYSIS

Nitrogen.....25%

Fulvic Acid.....5%

Combined with a high load of kelp and fulvic acid.

DO NOT EXCEED RECOMMENDED APPLICATION RATES

Turf:

20lt per hectare in min 500lt of water. Alternatively,
4% of total solution (E.G 4lt per 100lt of water).

Never spray leaves with more than 4% of solution. For example
for every 100lt of water you can apply 4lt of liquid fertilisers.
