

Affinity Bio Technologies

Quality, Experience, Passion

Affinity DuraSeal

A pruning and grafting dressing to provide a physical protection to exposed trunk wounds.

CAUTION:

Avoid contact with eyes. Keep out of reach of children.
If swallowed seek medical advice.

Do not store in direct sunlight.

CONDITIONS OF SALE:

Affinity products are manufactured to label specifications.
Affinity takes no responsibility for product damage, loss,
injury or misuse of the product.

COMPATIBILITY

Affinity DuraSeal is compatible in most ag chem tank mixes.
However a jar test is recommended as some chemicals can
react. Can mix with APVMA registered pruning fungicides.

**Do not store mixed product. Mix well prior to use.
Refer to SDS for correct handling and safety protocol.**

• Can be diluted to reduce viscosity and spray on
(reduced effectiveness, improved operational efficiencies).

• Tried and tested in field with zero crop toxicity.

• Longer lasting and improved UV protection to paint.

• More elastic and durable than paint.

• Less toxic than paint.

Affinity Liquid Fertilisers

DO NOT EXCEED RECOMMENDED APPLICATION RATES

Can be used on all tree crops including macadamia,
vines, almonds, citrus, avocado, apples, pears,
cherries, forestry and pistachio. Apply as required
to cover wounds completely using brush or bottle
applicator. For best results mix with relevant trunk
approved APVMA registered fungicides.

Apply ASAP after pruning.
