

Affinity Bio Technologies

Quality, Experience, Passion

Affinity Supreme

High phosphate and trace element mix combined with a high load of organic acid. Excellent for pre flowering and stress conditions.

CAUTION:

Avoid contact with eyes. Keep out of reach of children.
If swallowed seek medical advice.

Do not store in direct sunlight.

CONDITIONS OF SALE:

Affinity products are manufactured to label specifications.
Affinity takes no responsibility for product damage, loss,
injury or misuse of the product.

COMPATIBILITY

Affinity Supreme is compatible in most ag chem tank mixes.
However a jar test is recommended as some chemicals can
react. Do not mix amines or calcium products.

Do not store mixed product. Mix well prior to use.
Refer to SDS for correct handling and safety protocol.

Affinity Liquid Fertilisers works best when plants are actively growing
and under reduced stress. Apply mid morning in dry conditions for best
results. Do not spray in hot conditions. For best results consult a
certified agronomist to determine crop deficiencies.
