Affinity Zinc Primer

A chelated zinc designed specifically to treat seed to improve germination and early root growth.

CAUTION:

Avoid contact with eyes. Keep out of reach of children.
If swallowed seek medical advice.

Do not store in direct sunlight.

CONDITIONS OF SALE:

Affinity products are manufactured to label specifications.
Affinity takes no responsibility for product damage, loss,
injury or misuse of the product.

COMPATIBILITY

Affinity Complex Zinc is compatible in most ag chem tank
mixes. However a jar test is recommended as some
chemicals can react. Do not mix amines or calcium products.

Do not store mixed product. Mix well prior to use.
Refer to SDS for correct handling and safety protocol.

Affinity Liquid Fertilisers works best when plants are
**actively growing and under reduced stress. Apply mid
morning in dry conditions for best results. Do not spray
in hot conditions. For best results consult a certified
agronomist to determine crop deficiencies.**

ANALYSIS

Zinc..... 15% W/V

Sulphur.....7% W/V
