Quality, Experience, Passion

Affinity Precision EDTA Iron

A fully compatible EDTA chelate with the added benefit of Ascophyllum Nodosum (arcadian kelp) and fulvic acid for improved nutrient uptake, nutrient metabolism and root growth.

CAUTION:

Avoid contact with eyes. Keep out of reach of children.
If swallowed seek medical advice.

Do not store in direct sunlight.

CONDITIONS OF SALE:

Affinity products are manufactured to label specifications.
Affinity takes no responsibility for product damage, loss,
injury or misuse of the product.

COMPATIBILITY

Compatibility Affinity Precision EDTA Iron is fully compatible
with agricultural chemicals. However a jar test is
recommended as some chemicals can react. Do not mix
amines or calcium products.

Do not store mixed product. Mix well prior to use.
Refer to SDS for correct handling and safety protocol.

Affinity Liquid Fertilisers works best when plants are actively growing
and under reduced stress. Apply mid morning in dry conditions for best
results. Do not spray in hot conditions. For best results consult a
certified agronomist to determine crop deficiencies.
