

# Affinity Liquid Fertilisers

Quality, Experience, Passion

## Affinity Turf

A tailored product specifically designed for optimal turf maintenance. Nitrogen combined with trace elements and organic stimulants ensures improved colour and root growth.

### CAUTION:

Avoid contact with eyes. Keep out of reach of children.  
If swallowed seek medical advice.

**Do not store in direct sunlight.**

### CONDITIONS OF SALE:

Affinity products are manufactured to label specifications.  
Affinity takes no responsibility for product damage, loss,  
injury or misuse of the product.

### COMPATIBILITY

Affinity Turf is compatible in most ag chem tank mixes.  
However a jar test is recommended as some chemicals can  
react. Do not mix amines or calcium products.

**Do not store mixed product.**  
**Mix well prior to use.**

Affinity Liquid Fertilisers works best when plants are  
**actively growing and under reduced stress. Apply mid  
morning in dry conditions for best results. Do not spray  
in hot conditions. For best results consult a certified  
agronomist to determine crop deficiencies.**

### ANALYSIS

Nitrogen.....	10%
Iron.....	2%
Manganese.....	1%
Magnesium.....	1%
Zinc.....	0.5%
Copper.....	0.1%
Molybdenum.....	0.01%

Combined with a high load of kelp and fulvic acid.

### DO NOT EXCEED RECOMMENDED APPLICATION RATES

#### Turf:

20lt per hectare in min 500lt of water. Alternatively,  
4% of total solution (E.G 4lt per 100lt of water).

Never spray leaves with more than 4% of solution. For example  
for every 100lt of water you can apply 4lt of liquid fertilisers.
